About us

A UNIQUE PILOT SCHOOL

CANAVIA

is a professional pilot school founded in 2009 in the Canary Islands. We are proud to be the first Spanish aviation school to receive accreditation from the State Aviation Safety Agency (AESA) as an approved educational organization according to EASA standards in 2013, making us E-ATO-172.

CANAVIA is the only aviation school in the Canary Islands that offers aviation courses at all levels - from zero experience to the highest degree of pilot education.

In the past 17 years, our school has qualified hundreds of students who are now employed by major worldwide airlines, or have developed their professional activity in executive business flying or other commercial aviation sectors, as a result of having received excellent training.

About Integrated ATPL

Fulfill your dream of becoming a professional pilot with the most complete Airline Pilot Course on the market and obtain all the licences in record time - only 17 months!

No previous experience is required to start the training. You just need intermediate English, Maths and Physics levels, and to be at least 17 years old.

If you already have experience, our unique training methodology will help you expand your knowledge and skills, preparing you to embark on a career as a professional airline pilot.

You will obtain an EASA FROZEN ATPL licence, which will allow you to work as pilot-in-command (PIC) in commercial airplanes or co-pilot in any airline.

//// EASA FROZEN ATPL LICENCE PRIVILEGES

This licence entitles you to perform aerial and general aviation work; act as pilot-in-command in commercial air transport operations in any aircraft certified for a single-pilot and also act as co-pilot in airlines.

//// TRAINING COMPLETION IN ONLY 17 MONTHS

Integrated ATPL is a wisely-constructed full-time programme with a fixed training schedule that allows finishing the entire programme in only 17 months. You can easily estimate training completion date and plan your job interviews in advance, as well as reduce training costs by living in the Canary Islands.

//// WHO IS THIS PROGRAMME FOR?

EASA Integrated ATPL programme is suitable for anyone who wants to become a professional pilot fast and from the zero level. This programme is ideal for anyone who wants to quickly complete their studies and start working in professional aviation without unnecessary delays, while receiving the most comprehensive training.

ENTRY REQUIREMENTS FOR ALL APPLICANTS

Class 1 Aeronautical Medical certificate

•

At least 18 years old at the time of obtaining the licence

•

A bachelor's degree or similar is recommended

•

Basic-level Maths & Physics test

•

Intermediate level English

•

Enthusiasm & commitment

Training

228 flight training hours (minimum)
•
800 hours of on-site theoretical lessons
•
ATPL theoretical exams (1st attempt)
•
Flight Skill Tests (1st attempt)
•
Flight examiner fee (1st attempt)
•
English Language Proficiency Test
•
UPRT Course
•
Multi Crew Cooperation Training
•
Studying Techniques Course
•
Airline Recruitment Process Coaching
•
Training Expenses Loss Insurance*

Material

Pad Pilot study materials
•
Headset
•
CR3 Computer
•
Plotter
•
Logbook
•
Navigation charts
•
Online library
•
Suitcase
•
Uniform

*You will be refunded the amount paid to the school in case you lose - during your training period - the ability to renew your Class 1 medical examination.

CANAVIA's theoretical programme is composed of 800 hours of on-site learning taught at our facilities and with the support of different study platforms which will provide multimedia material with key elements such as Knowledge, Skills and Attitudes (KSA), Threat and Error Management (TEM) and Crew Resource Management (CRM), which are key for the professional development of students.

//// SUBJECTS

- Air Law
- Aircraft General Knowledge
- Instrumentation
- Mass & Balance
- Performance
- Flight Planning and Monitoring
- Human Performance and Limitations
- Meteorology
- General Navigation
- Radio Navigation
- Operational Procedures
- Principles of Flight
- Communications
- Knowledge, Skills and Attitudes (KSA)

Training	Flight hours		Week	Theory
First flight experience	1		0	- Start of the theoretical ATPL course - 240 learning hours - SEP and Flight Safety Course
PHASE 1			14	Pre-flight theoretical assessment
- Basic VFR - Progress check before first solo flight - Solo flight	21			
PHASE 2			20	General Navigation completed
- Advanced VFR, Basic UPRT, Cross-country - Progress check before first cross-country solo - Cross-country solo - Private Pilot progress check	45			
PHASE 3			50	- Theoretical course completed - Theory release (internal) - All 13 official ATPL exams passed
- SEP cross-country flight training - Cross-country flight check (Phase 1, 2 & 3) - VFR Cross-country 300 NM - Basic IR flight - Basic IR UPRT - Basic IR internal check	69,5			
PHASES 4 & 5			58	- Night VFR course - ICAO English exam (level 4-6)
- Night VFR - Night cross-country VFR - Solo Night VFR Touch & Go - Advanced IR flight - SPIC cross-country training - Progress test - PBN - Advanced UPRT & assesment - MEP, VFR flight - MEP, IFR cross-country - CPL(A) skill test - IR-ME skill test	84,5			
	167			
	171			UPRT theoretical course
	177			MEP(land) theoretical course
	183			
	185			
	186,5			
	188			
PHASE 6			70	MCC theoretical course
MCC course	208			CPL (A) obtained

Tecnam P2008JC

Tecnam P2006T

Cessna 150M

Pipistrel Virus SW121A

Tecnam P2010 MKII

We also have EASA-certified A320, B737 and FNPT-II simulators, which offer highly realistic flight performance, high-definition visual systems, and real aircraft cockpits, allowing students to train in conditions and scenarios that closely replicate real flight operations.

OBTAINED QUALIFICATIONS

Commercial Pilot Licence (CPL)

•

Instrument Rating (IR + PBN)

•

Single-Engine Piston Rating (SEP)

•

Multi-Engine Piston Rating (MEP)

•

International Radiotelephone Operator Rating

•

Airline Transport Pilot Licence Theoretical Knowledge (ATPL-f)

•

Multi Crew Cooperation Certificate (MCC)

•

Upset Prevention and Recovery Training Certificate (UPRT-A)

•

English Language Proficiency (ICAO Level 4/5/6)

ACCOMMODATION

CANAVIA offers accommodation options at cozy student houses, located within a maximum of a 30 minute drive to reach classes and flights.

Enjoy our 360° tour

Why choose us

Top Reasons to Choose CANAVIA

//// CLIMATE OF THE CANARY ISLANDS

The climate is subtropical and generally mild throughout the year, with temperatures ranging from 18-24°C in winter and 24-28°C in summer, creating perfect conditions for pilot training. We fly 365 days per year!

//// KEY LOCATIONS

We are proud to run 4 operational bases and our own CAO Maintenance centre in the Canary Islands. With 8 international airports within 2 hours distance from any base, we created perfect conditions for students to gain all the necessary knowledge and skills during their training.

//// ACCOMMODATION

Accommodation is available for the entire training period - shared residences with single rooms for the exclusive use of our students.

Why choose us

//// INTERNATIONAL CAMPUS

We are part of the first and only Aviation Campus in the Canary Islands - a place to meet aviation professionals and students of all nationalities. You have the opportunity to quickly integrate into a rich international aeronautical environment.

**aviation
campus**

//// ON-SITE MAINTENANCE

CANAVIA is an EASA certified maintenance centre, ES.CAO.026, reinforcing our structure as a training centre and guaranteeing the highest standards of availability, safety and quality of our fleet.

//// PRIVATE AIRFIELD

In addition to running several operational bases at main airports, we have a private airfield managed exclusively by our school, which means qualified flight training without any delays or interferences.

//// BRAND NEW FLEET

We operate a versatile fleet of more than 14 aircraft with the latest Garmin Glass Cockpit navigation systems. In addition, we have Airbus A320, Boeing B737 and FNPT simulators, as well as numerous training devices.

//// EASA Integrated ATPL Standard

Our Standard Integrated ATPL Programme will take you from zero experience to becoming a fully qualified commercial pilot in just 16 months.

The programme includes 208 flight hours, MCC (Multi-Crew Cooperation) training, and an additional 20 hours of flight training on a Flight Training Device (FTD)

//// EASA Integrated ATPL Advanced

This programme includes all the training contained in the Standard Integrated ATPL course, together with the Airline Pilot Standard (APS) MCC programme, which adds 20 additional hours of training in a jet aircraft simulator.

In total, the programme comprises 228 flight hours plus 20 hours on a Flight Training Device (FTD), completed over a period of 17 months.

The enhanced APS MCC qualification is increasingly valued and requested by many airlines as part of their pilot recruitment and selection processes.

//// EASA Integrated ATPL First Officer

The most comprehensive training programme available for aspiring airline pilots.

Designed to provide a direct pathway into an airline career, this programme includes 265 flight hours, APS MCC training, a Type Rating conducted in a Full Flight Simulator (FFS), and an additional 20 hours of training on a Flight Training Device (FTD).

This comprehensive training pathway provides students with an EASA Commercial Pilot Licence (CPL) and a jet aircraft Type Rating, ensuring the fastest and most competitive route into the airline profession.*
