About us

A UNIQUE PILOT SCHOOL

CANAVIA

is a professional pilot school founded in 2009 in the Canary Islands. We are proud to be the first Spanish aviation school to receive accreditation from the State Aviation Safety Agency (AESA) as an approved training organisation according to EASA standards in 2013, making us E-ATO-172.

CANAVIA is the only aviation school in the Canary Islands that offers aviation courses at all levels - from zero experience to the highest degree of pilot education.

In the past 17 years, our school has qualified hundreds of students who are now employed by major worldwide airlines, or have developed their professional activity in executive business flying or other commercial aviation sectors, as a result of having received excellent training.

Fulfill your dream of becoming a professional pilot at your own pace and convenience with our modular programme.

No previous experience is required to start the training. You just need intermediate English, Maths and Physics levels, and to be at least 17 years old.

If you already have experience, our unique training methodology will help you expand your knowledge and skills, preparing you to embark on a career as a professional airline pilot.

You will obtain an EASA FROZEN ATPL licence, which will allow you to work as pilot-in-command (PIC) in commercial airplanes or co-pilot in any airline.

//// EASA FROZEN ATPL LICENCE PRIVILEGES

This licence entitles you to perform aerial and general aviation work; act as pilot-in-command in commercial air transport operations in any aircraft certified for a single-pilot and also act as co-pilot in airlines.

//// FLEXIBLE TRAINING TERMS

Modular training allows you to complete separate parts of the programme at your own pace and within your schedule and financial possibilities, with the option to study face-to-face or by distance learning. You decide how many hours and which days you wish to dedicate to the training. This makes the programme easy to combine with work or other activities.

//// WHO IS THIS PROGRAMME FOR?

EASA ATPL Modular programme is suitable for anyone who wants to become a professional pilot from the zero level, or from a private pilot licence. Due to its modular structure, the programme is ideal for those who cannot study full-time and are looking for an option that can be combined with their main activity. It is undoubtedly the top choice for aeronautical maintenance technicians, flight attendants, aeronautical engineers, etc.

ENTRY REQUIREMENTS FOR ALL APPLICANTS

Class 1 Aeronautical Medical certificate

•

At least 18 years old at the time of obtaining the licence

•

A bachelor's degree is recommended

•

Basic-level Maths & Physics test

•

Intermediate level English

•

Enthusiasm & commitment

What is included

Included with whole modular ATPL contract:

Training

246 flight training hours
•
On-site/distance ATPL theoretical course
•
Flight Skill Tests (1st attempt)
•
English Language Proficiency Test
•
UPRT Course
•
Multi Crew Cooperation Training
•
Airline Recruitment Process Coaching

Materials

Pad Pilot study materials

•
Headset
•
CR3 Computer
•
Plotter
•
Logbook
•
Navigation charts
•
Online library
•
Suitcase
•
Uniform

The theoretical programme may be carried out face-to-face (650 hours on-site or online) or distance learning mode (585 distance learning hours and 65 face-to-face hours). Regardless of your training choice, our different study platforms will provide multimedia material with key elements such as Knowledge, Skills and Attitudes (KSA), Threat and Error Management (TEM) and Crew Resource Management (CRM), which are key for the professional development of students.

////// SUBJECTS

- Air Law
- Aircraft General Knowledge
- Instrumentation
- Mass & Balance
- Performance
- Flight Planning and Monitoring
- Human Performance and Limitations
- Meteorology
- General Navigation
- Radio Navigation
- Operational Procedures
- Principles of Flight
- Communications
- Knowledge, Skills and Attitudes (KSA)

Total estimated duration: from 12 to 24 months

The duration of the programme is subject to the student's availability and the time dedicated to training. As it is a modular programme, it can be combined with work and other obligations.

Module	Duration	Flight hours	Training
PPL(A)	16 weeks	46'5	- Theory - 100 hours - Flight training - 45 SEP 9 official exams
ATPL Theoretical Course	40 weeks		- Theory - 650 hours 13 official exams
Timebuilding	10 weeks	139	92'5 SEP flight hours
NVFR	1 week	144	- Theory - 2 hours - Flight training - 5 SEP
Basic IR	2 weeks	155	Flight training - 10 SEP
ICAO English exam			English Language Proficiency Exam
IR-ME	10 weeks	201	30 flight hours in FNPT-II 15 MEP flight hours 1 MEP flight hour – Exam
CPL(A)/MEP(land)	4 weeks	224	- Theoretical Hours 7H (MEP Course) 10:00 F.H. SEP (CPL Course) 05:00 F.H. MEP (CPL Course) 06:00 F.H. MEP (MEP Course)ç 02:00 F.H. MEP (Skill Test CPL/MEP)
UPRT	3 days	228	- Theory - 5 hours - Flight training - 3 SEP
MCC	2 weeks	248	- Theory - 25 hours - Flight training - 20 hours FNPT

CPL(A) obtained

Total estimated duration: from 12 to 24 months

Tecnam P2008JC

Tecnam P2006T

Cessna 150M

Pipistrel Virus SW121A

Tecnam P2010 MKII

We also have EASA-certified A320, B737 and FNPT-II simulators, which offer highly realistic flight performance, high-definition visual systems, and real aircraft cockpits, allowing students to train in conditions and scenarios that closely replicate real flight operations.

OBTAINED QUALIFICATIONS

Commercial Pilot Licence (CPL)

•

Instrument Rating (IR + PBN)

•

Single-Engine Piston Rating (SEP)

•

Multi-Engine Piston Rating (MEP)

•

International Radiotelephone Operator Rating

•

Airline Transport Pilot Licence Theoretical Knowledge (ATPL-f)

•

Multi Crew Cooperation Certificate (MCC)

•

Upset Prevention and Recovery Training Certificate (UPRT-A)

•

English Language Proficiency (ICAO Level 4/5/6)

ACCOMMODATION

Canavia offers accommodation options at cozy student houses, located within a maximum of a 30 minute drive to reach classes and flights.

Enjoy our 360° tour

Why choose us

Top Reasons Choose CANAVIA

//// CLIMATE OF THE CANARY ISLANDS

The climate is subtropical and generally mild throughout the year, with temperatures ranging from 18-24°C in winter and 24-28°C in summer, creating perfect conditions for pilot training. We fly 365 days per year!

//// KEY LOCATIONS

We are proud to run 4 operational bases and our own CAO Maintenance centre in the Canary Islands. With 8 international airports within 2 hours distance from any base, we created perfect conditions for students to gain all the necessary knowledge and skills during their training.

//// ACCOMMODATION

Accommodation is available for the entire training period - shared residences with single rooms for the exclusive use of our students.

Why choose us

//// INTERNATIONAL CAMPUS

We are part of the first and only Aviation Campus in the Canary Islands - a place to meet aviation professionals and students of all nationalities. You have the opportunity to quickly integrate into a rich international aeronautical environment.

**aviation
campus**

//// ON-SITE MAINTENANCE

Canavia is an EASA certified maintenance centre, ES.CAO.026, reinforcing our structure as a training centre and guaranteeing the highest standards of availability, safety and quality of our fleet.

//// PRIVATE AIRFIELD

In addition to running several operational bases at main airports, we have a private airfield managed exclusively by our school, which means qualified flight training without any delays or interferences.

//// BRAND NEW FLEET

We operate a versatile fleet of more than 14 aircraft with the latest Garmin Glass Cockpit navigation systems. In addition, we have Airbus A320, Boeing B737 and FNPT simulators as well as numerous training devices.
